

# LifeSize Passport

## NETWORK CONNECTION FAST FACTS

LifeSize Passport needs to be attached to an ADSL 2 + connection

A fixed public IP address synchronous speed ADSL 2+ annex M or SHDSL is recommended for videoconferencing

A minimum speed for videoconferencing is 128Kbps/128Kbps

A recommended speed for Business Grade Video Conferencing is 512Kbps/512Kbps

Other videoconferencing considerations are firewall settings on the transversal equipment
